## Skills Summary

Self taught frontend developer and technical lead.§

## Technologies

ES6, React, Sass, Webpack, HTML5

## Experience

### **Brandworkz**

*Lead frontend / UX develop – 2015 to present*

Aid with frontend specs and software innovations, liaise with client services in regards to client customizations. Help guide and develop juniors.

### **Camelot**

*Facilities Assistant – 2010 - 2015*

Built an index database outlining facilities based inventory and supporting documents across 3 UK offices.

## Projects

**Brandworkz | DAM** - Rebuilt the digital asset management core module to connect to a new API built as part of this project. Emphasis was on a new user interface that was to replace the existing out of date UI.

*Jquery*

**Brandworkz | Annotations** - Created a tool that enabled users to annotate on image and document assets, users could highlight part of the asset by drag selecting, other users

---

could reply to these comments separately. The project saved the company £50,000 annum to a 3rd party software that was used for the same thing.

*Vanilla JS / HTML5*

**Personal | Portfolio** – I started this project as a means to improve upon my own portfolio site that was no longer showcasing my current skillset and also as a means of teaching myself Node JS. It was a big learning curve and enabled me to get excited about doing new development as well as learn required development steps I might have previously not concentrated on such as setting up servers.

*Node JS / React*

## **Personal Statement**

I am driven and excitable. I like to get my teeth into a project and innovate around the central ideas to help further improve a project. I am almost completely self taught having learnt basic HTML and CSS through an evening course. I love the development process and work really well within a team. I show great leadership skills and really enjoy helping with a juniors development and shaping in the way of best practices.

## **Qualifications**

BA Hons Media Design and Production

Website software level 3
